

### **Building Recreational Flight Simulators By**

Building Recreational Flight Simulators 4 today's flight simulation applications are capable of so much that "adequate" is not good enough. We already augment the basic personal computer by adding joysticks, rudder pedals and engine controls. We're able to avoid the obviously not-part-of-an-airplane keyboard and mouse, at least to an ...

### **Building Recreational Flight Simulators by Powell**

Mike Powell's new book, "Building Recreational Flight Simulators" has been sent off to the publisher! This book is the much anticipated sequel to "Building Simulated Aircraft Instrumentation". Keep an eye on Mike's Flight Deck website for price and availability. The completed books are due to arrive some time in August.

### **Building Recreational Flight Simulators is complete ...**

Flight simulation software has never been better, and I can help you upgrade from using just a keyboard and mouse. My online tutorials teach you how to use common materials from a hardware store to build an airplane simulator cockpit (simpit) or a functional framework for your flight controls. The time to realize your dream of flight is now!
